love your skin again...

with a revitalising SilkPeel® Microdermabrasion Facial

Our SilkPeel® Facial is essentially two treatments in one, combining a 'wet' microdermabrasion while simultaneously infusing the skin with a nutrient rich serum. It's so effective because it not only exfoliates and drains toxins from the complexion, but also hydrates the skin with a solution of vitamins, minerals and antioxidants.

Convenient, safe and painless, the SilkPeel® Facial takes only 30 minutes to perform on the face and neck area. From the first treatment your complexion will show significant improvements. Skin instantly looks firmer, younger and healthier; feeling smooth, soft and replenished.

We have seen amazing results with the SilkPeel® Facial in our Albany and Howick Day Spas, and will soon be launching this treatment in our Manukau salon.

For the best results, we recommend a course of four to six treatments.

heaven scent

Set the mood for a great night's beauty sleep with this relaxing evening ritual...

At night while the body rests, our skin regenerates and repairs itself from the environmental damage we encounter every day (stress, pollution, free-radicals, air conditioning, etc.). During this phase our skin becomes more receptive to the benefits of beauty care products, so a specially formulated cream or balm is the most effective way to hydrate and nourish your complexion.

To make the most of this evening rejuvenation, and help you prepare for a restful beauty sleep, we have created a comforting aroma night-time ritual. It combines the soothing effects of a night cream with the rich fragrances of our Neroli, Petitgrain, Amber and Cedar scented candle. These calming aromatherapy oils will put you into the perfect frame of mind for a peaceful night of relaxation and replenishment...

tips

The combination of colder weather and cranking up the indoor heating plays havoc with our skin. So, to keep your complexion looking fresh and flawless, it's über-essential to regularly exfoliate skin (chemical or manual), then treat yourself with a nourishing, moisture-rich mask.

And it's not just your complexion that needs attention this winter. Invest in a high-performance hydrating body lotion and keep a liberal supply of hand cream and lip balm in your handbag or desk drawer – they're the true saviours of the season.

goss

You may have noticed some fresh new faces appearing at More Than Skin – we're delighted to welcome Bridget, Liza and Alison to the team in their dual roles as trainer and therapist.

Fashion Quarterly Editor, Fiona Hawtin, recommends our SilkPeel® DermoLissage™ facial as the perfect way to prep for a big event (featured in Fashion Quarterly Occasions magazine). Thanks Fiona!

Age ain't nothing but a number! DECLÉOR have introduced their innovative new Lift Expérience Thermal Mask to our Aroma Expert facials – simply age-defying.
